

Genome Sciences Seminar

Wednesday, 4.5.17 | 3:30 | Foege Auditorium

Dr. Joseph DeRisi

Co-President of the Chan Zuckerberg Biohub

Professor of Biochemistry & Biophysics, UC San Francisco

“Genomics and Infectious Disease”

DeRisi Lab:

The DeRisi Lab focuses on genomic approaches to the study of infectious disease. Specifically, we are studying *Plasmodium falciparum*, the causative agent of the most deadly form of human malaria. We are also involved in a major effort for the discovery of new viral pathogens associated with diseases of unknown etiology.

Refreshments served outside the Auditorium at 3:20pm

Questions? Contact Brian Giebel at bgiebel@uw.edu or visit the Seminar website at <http://www.gs.washington.edu/news/seminars.htm>
