

# Combi Seminar

Wednesday, 2.20.19 | 1:30 | Foege Auditorium

---

## Dr. Kelley Harris

Assistant Professor, Department of Genome Sciences  
University of Washington

**“The more things change, the more they stay the same: a study of great ape mutation spectrum variation”**

**The Harris Lab** uses large datasets of genetic variation to study the evolutionary history of humans and other species, with particular interests in coalescent theory and the evolution of the mutation rate and spectrum.
