

Genome Sciences Seminar

Wednesday, 10.20.21 | 3:30 | held remotely

<https://depts.washington.edu/gstrestrc/remote.htm>

Dr. Jonathan Weissman

Investigator, Howard Hughes Medical Institute

Member and Landon T. Clay Professor of Biology, Whitehead Institute

Professor of Biology, MIT

Member, Koch Institute for Integrative Cancer Research at MIT

“Following tumor evolution and metastasis with a single cell ‘molecular flight recorder’ ”

Our laboratory is looking at how cells ensure that proteins fold into their correct shape, as well as the role of protein misfolding in disease and normal physiology. We are also developing experimental and analytical approaches for exploring the organizational principles of biological systems and globally monitoring protein translation through ribosome profiling.
