Tenure-track Assistant and Associate Professor of Genome Medicine and Science

The Department of Genome Medicine and Science at the Gachon University School of Medicine seeks outstanding applicants for tenure-track positions at the level of Assistant and Associate Professors. The research areas of the department include cancer genomics, pharmacogenomics, system biology research, translational genomics, and clinical genomics. We encourage applicants whose research focuses on human and medical genomics using functional, computational and NGS-based genomics.

Successful candidates will receive generous start up packages. The Department of Genome Medicine and Science lies at the interface between basic and clinical sciences with ample opportunities for interdisciplinary studies with Gachon University Lee Gil Ya Cancer and Diabetes Institute and Neuroscience Institute. Applicants must have an MD with a record of research excellence or PhD in genetics/genomics or a related field, with a minimum of 3-5 years of post-doctoral research training. Applicants with fluent Korean languages will be given priority.

The application package should include a cover letter highlighting qualification and interests related to this position, curriculum vitae, names and contact details of three references and a statement of research goals.

Applications should be electronically submitted to Dr. Sihoun Hahn, Chair of the Department, c/o Mr. JongHoon Choi (jh.choi@gachon.ac.kr)
