

Genome Sciences Seminar

Wednesday, 4.26.17 | 3:30 | Foege Auditorium

Dr. Daniela Witten

Associate Professor of Statistics and Biostatistics
University of Washington

<https://faculty.washington.edu/dwitten/index.html>

“Statistical Methods for Problems in Genomics and Neuroscience”

Witten Lab:

Daniela Witten's research involves the development of statistical machine learning methods for high-dimensional data, with applications to genomics, neuroscience, and other fields. She is particularly interested in unsupervised learning, with a focus on graphical modeling.

Refreshments served outside the Auditorium at 3:20pm

Questions? Contact Brian Giebel at bgiebel@uw.edu or visit the Seminar website at <http://www.gs.washington.edu/news/seminars.htm>

The University of Washington is committed to providing access, equal opportunity and reasonable accommodations in its services, programs, activities, education and employment of individuals with disabilities. To request disability accommodations contact the Disability Services Office at least ten days in advance at: 206.543.6450/V, 206.543.6452/TTY, 206.685.7264 (FAX), or e-mail at dso@u.washington.edu
