

Genome Sciences Seminar

Wednesday, 5.12.21 | 3:30 | held remotely

<https://depts.washington.edu/gstrestrc/remote.htm>

Dr. Molly Schumer

Assistant Professor
Stanford University

“The genetic architecture of a lethal hybrid incompatibility”

Our lab studies the evolution of natural populations, focusing on the how the process of hybridization impacts the evolution of genomes and species.

We combine experimental, modeling, and field-based approaches to understand the many roles of hybridization in the evolutionary process.
