

# Genome Sciences Seminar

Wednesday, 5.31.23 | 3:30 | Foege Auditorium

remote viewing option: <https://depts.washington.edu/gstrestrc/remote.htm>

---

## Dr. Christoph Bock

Principal Investigator, CeMM Research Center for  
Molecular Medicine

Professor, Medical University of Vienna

<https://www.bocklab.org/>

## “Looking into the past and future of cells - High-throughput analysis of epigenetic cell states for precision medicine and cell-based therapy”

Christoph Bock is a Principal Investigator at the CeMM Research Center for Molecular Medicine of the Austrian Academy of Sciences and Professor of Medical Informatics at the Medical University of Vienna. His research combines experimental biology (single-cell sequencing, epigenetics, CRISPR screening, synthetic biology) with computational methods (bioinformatics, machine learning, artificial intelligence) – for cancer, immunology, and precision medicine.
