

Genome Sciences Seminar

Wednesday, 5.3.23 | 3:30 | Foege Auditorium

remote viewing option: <https://depts.washington.edu/gstrestrc/remote.htm>

Dr. Emilia Huerta-Sanchez

Associate Professor, Ecology, Evolution and Organismal Biology,
Center for Molecular Computational Biology, Brown University

<https://www.huertasanchezlab.com/>

“Denisovans, Neanderthals, and Modern Humans: An Evolutionary History of Recurrent Introgression and Natural Selection”

We are a population genetics lab harnessing ancient and modern DNA to address questions in human evolutionary biology. We combine population genetic theory, statistics, and simulations to develop methods to infer evolutionary parameters.

Questions? Contact Brian Giebel at bgiebel@uw.edu or visit the Seminar website at <http://www.gs.washington.edu/news/seminars.htm>

The University of Washington is committed to providing access, equal opportunity and reasonable accommodations in its services, programs, activities, education and employment of individuals with disabilities. To request disability accommodations contact the Disability Services Office at least ten days in advance at: 206.543.6450/V, 206.543.6452/TTY, 206.685.7264 (FAX), or e-mail at dso@u.washington.edu
