

Genome Sciences Seminar

Wednesday, 5.22.24 | 3:30 | Foege Auditorium

remote viewing option: <https://depts.washington.edu/gstrestrc/remote.htm>

Dr. Jeff Carroll

University of Washington

<https://sites.uw.edu/jeffcarr/>

“Huntington’s Disease in the Post-GWAS Era”

The Carroll lab in UW’s Department of Neurology is focused on enhancing treatments for people impacted by rare neurodegenerative diseases. We rely on cell and mouse model systems in an attempt to help understand the basic pathological mechanisms of disease, as well as test experimental therapeutics.

Questions? Contact Brian Giebel at bgiebel@uw.edu or visit the Seminar website at <http://www.gs.washington.edu/news/seminars.htm>

The University of Washington is committed to providing access, equal opportunity and reasonable accommodations in its services, programs, activities, education and employment of individuals with disabilities. To request disability accommodations contact the Disability Services Office at least ten days in advance at: 206.543.6450/V, 206.543.6452/TTY, 206.685.7264 (FAX), or e-mail at dso@u.washington.edu
